

Accessibility Statement for Kingsgate Workshops.

The new Education Block (coloured green on the plan) is fully wheelchair accessible, with level access from the street. It includes an accessible toilet.

The rest of the Kingsgate Workshops building is a Victorian warehouse building, with numerous changes of level and many staircases. The main flights of stairs all have substantial hand-rails.

Access for wheelchair users is unfortunately severely restricted:

- Gallery Upper level (coloured orange on the plan) is accessible from the street - there is a threshold ramp of about 3".
- Gallery Lower level (coloured blue on the plan) can be accessed from entry through the double doors at the end of the building, along the ground-floor corridor, through the rear door to the Gallery. There is a raised threshold strip of about 5". This access may not be available for all exhibitions - please phone or e-mail us and we will be happy to confirm arrangements.
- For Open Studios events only, ground floor studios and the office (coloured purple on the plan) can be accessed as for Gallery Lower level. Studios 1, 7, 10, are level access; all others have a single step of approximately 5". The Emerging Artists studios (coloured yellow on the plan) - Studio 17 - can be accessed from the Yard gate. There is a step up of about 4", and a single step within the studio of about 4".
